

## **tAngerinecAt technical rider**

Eugene - Vocals, Hurdy-Gurdy + Effect Pedals

Paul – Laptop, Whistles, Vocals

**Sound System:** PA - 20 Wt nominal power per person as a rule of thumb but no less than 1kwt. Full P.A with Subs and Tops is required. Expect powerful electronic drums, rhythms and bass.

**Mixer and connections:** Mixer and stagebox should have a minimum of 8 free channels for all our connections

We send 8 xlr balanced direct outputs from our stage mixer. We use all our own mics/pickups/di boxes.

**Additional:** 2 Microphone Stands (**We use our own mics**),

220Vt power source on stage.

8 XLR Cables

1 stool/chair

### **Important Information**

We use in ear monitors and control our own monitor mix from on stage.

You don't need to provide or do anything for this. Please double check nothing is being sent to the stage monitors.
